

VIPER SQUADRON Aggressor Kneeboard System

Viper Squadron Aggressor Kneeboard System Features:

Not just a pilot kneeboard, but a versatile system with multiple configurations to suit the pilot preference or type of flying from basic student kneeboard, to VFR, IFR, aerobatics, high performance civilian or military jet aircraft.

- **Padded Storage Bag:** Key ring, pen pocket, clear vinyl business card pocket, Velcro area for displaying patch of choice, and rear pocket for additional storage. Bag has room for kneeboard, map case, check list, log book, extra charts and documents. Elastic strap secures kneeboard items for protection in bag, and can be used to store additional items when kneeboard is being used.
- **Padded Kneeboard:** Pocket for ASA metal kneeboard, clear vinyl center pocket, left and right storage pockets, and adjustable elastic leg strap secured by a squeeze buckle.
- **Removable Check List Spine:** Velcro spine for flight crew checklist or instrument approach charts secured to right or left side of kneeboard. Checklist is easily removable for stand alone use and can be reattached to kneeboard with Velcro strip.
- **Removable Chart Case:** Map case with clear vinyl front is easily attached and removed from left or right side of kneeboard Velcro strips. Map case can be used with an additional map case, for 2 map cases on either side of kneeboard.
- **Removable G-Strap:** For inverted flight or aerobatics, a hold down strap with clear vinyl section is easily attached and removed by Velcro on either side of board to secure charts and maps. Prevents items from falling off kneeboard when flying inverted or doing aerobatics.

NOTE: System includes (1) Padded storage bag, (2) Padded kneeboard, (3) Map case, (4) Checklist spine, (5) G-strap and (6) Viper Squadron patch. Flight crew checklist and metal ASA kneeboard not include with kneeboard system.

| Price: \$95.00 | Shipping & Handling: \$15.00 |
